Aradhy Jain

Data Analyst Intern @ Teerthanker Mahaveer University | BTech,
Computer Science
Delhi, India

Summary

Currently a Data Analyst Intern at Teerthanker Mahaveer University, contributing to data-driven decision-making through exploratory data analysis and interactive Power BI dashboards. Collaborates with cross-functional teams to deliver structured reports and ensures data accuracy by cleaning and preprocessing large datasets to improve pipeline consistency. Pursuing a Bachelor of Technology in Computer Science at Teerthanker Mahaveer University, expected August 2026. Also developing and managing the Sanmati Journal website to enhance user experience and platform visibility. Skilled in Python, Excel modeling, and creating actionable insights to support organizational goals.

Experience

Teerthanker Mahaveer University, Moradabad

Data Analyst Intern

January 2026 - Present (5 months)

Moradabad

- Conducted exploratory data analysis on institutional datasets using Python (Pandas, Matplotlib), surfacing 8+ actionable insights that supported faculty and administrative decision-making.
- Built interactive Power BI dashboards tracking student performance KPIs across 5 departments, reducing manual reporting effort by ~35%.
- Cleaned and preprocessed 20,000+ records, identifying and resolving 400+ null/duplicate entries to improve data pipeline consistency.
- Collaborated with 3 cross-functional teams to define data requirements and deliver structured weekly analytics reports.

Sanmati Journal

Web Developer

January 2026 - Present (5 months)

Moradabad

- Developed and managed sanmatijournal.in, enhancing the digital platform for academic publishing.
- Organized website content and improved user experience for researchers and readers.
- Collaborated on SEO practices to boost platform visibility and credibility.

MathesisLabs Technologies Private Limited

IT Developer Intern

June 2025 - December 2025 (7 months)

- Designed and deployed 5+ Python automation scripts that eliminated repetitive IT workflows, saving ~6 hours of manual effort per week (~40% reduction).
 - Built backend data processing tools using Python (Requests, BeautifulSoup, Pandas) integrated with REST APIs for live data retrieval and transformation.
 - Contributed to IT analytics pipeline improvements, achieving a ~20% faster data ingestion cycle for internal reporting systems.
 - Documented all automation workflows and maintained a technical knowledge base used by 10+ team members.
- Built Python automation scripts reducing manual processing time by 30%.
Designed ETL pipelines for efficient data integration. Improved backend performance and scalability.

Trainity

Data Analyst

December 2024 - March 2025 (4 months)

- Completed 3 end-to-end data analysis projects across finance, restaurant, and retail domains using Python and Excel.
- Applied statistical analysis, data cleaning, and visualization techniques (Matplotlib, Seaborn) to derive business-relevant findings and actionable recommendations.
- Delivered structured analytical reports simulating real-world analyst deliverables, demonstrating ability to communicate data insights to non-technical stakeholders.

- Strengthened practical skills in EDA, data wrangling, and visual storytelling across diverse business datasets.

Oasis Infobyte

Data Analyst

January 2025 - January 2025 (1 month)

Cognifyz Technologies

2 months

Data Analysis Intern

November 2024 - December 2024 (2 months)

Remote

Data Analyst

November 2024 - December 2024 (2 months)

Performed visualization, cleaning, and statistical analysis using Python.

Education

Teerthanker Mahaveer University, Moradabad
